

# HAVE YOU THOUGHT ABOUT HOW SUSTAINABILITY CAN HELP IMPROVE YOUR BOTTOM LINE

?

**Summerhill** works creatively with retailers, utilities, non-governmental organizations, industry associations, manufacturers and government to bring **better choices** to consumers.

**Better for the environment.  
Better for your business.**

# Connecting you to better choices.

Summerhill works collaboratively with clients to produce innovative solutions that address environmental issues, including air quality, stewardship and energy. Leveraging our extensive knowledge of markets and industry, we provide:

- Consumer-facing and commercial program design and execution
- Public engagement; reaching customers and communities
- Employee engagement and education
- Product, industry and customer research; enabling informed decisions
- Content development backed by experience
- Innovative products and technologies that drive market transformation
- Strategic consulting and development; integrating business and sustainability

Summerhill is committed to designing and delivering profitable strategies that move the market toward better choices for consumers and the environment. We are based in Toronto, with offices in Regina and Montreal, employing over 50 full-time staff and more than 2,000 part-time ambassadors that support our program delivery across Canada.
