

creating the experience to convert your shoppers to buyers

print

decor

fixtures

Storeimage partners with the world's best known retailers to provide a holistic shopping experience to convert your shoppers to buyers. We specialize in creating solutions to any Print, Decor, or Fixture retail need.

Storeimage has over 350 000 ft² of manufacturing space under one roof.

Our print and graphics equipment includes large format screen printers, high speed flatbed and roll to roll digital printers.

Included in our decor area are die cutters, guillotines, dry mount presses, heat bending ovens and over 400 plastic extrusion profiles to choose from to create a unique product.

In our stand alone woodworking facility, our professional cabinet makers work with leading edge equipment such as CNC's, tiger-stop CNC's, overhead routers, panel saws and tigerstop saws.

Our production technicians and craftsmen look forward to creating your next customer experience.

solutions to world retail brands...
on time, on budget, on strategy
