

 **Company profile**

CN is engaged in the rail and related transportation business. CN's network of approximately 21,000 route miles spans Canada, from Halifax in the east to Vancouver and Prince Rupert in the west; and runs through the heart of mid-America, from northern Minnesota to New Orleans via Chicago and Memphis. It is the only rail network on the North American continent to connect three coasts – the Pacific, the Atlantic, and the Gulf of Mexico.

CN offers complete supply chain solutions, including warehousing and distribution services with over 80 facilities located in major cities across North America. Import and export freight forwarding services are handled through CN WorldWide, and CN provides customs brokerage services for import/export and North American domestic shipments.

CN has extensive knowledge of the North American market as a major transportation provider for forest products, grain and specialty crops, automobiles, coal, steel, consumer goods, and with expertise in linking together customers across the globe with those in North America.
